Table of Contents

<i>Benninghoff, D.L., R. Girardet: Lymphocyte Function in Hodgkin's Disease</i>	39
<i>Burgener, F.A., J.T. Adams: Analysis of the Radiographically Visualized Deep Hepatic Lymph Drainage in the Dog</i>	105
<i>Carvalho, A. de: Spontaneous Alterations in the Size of Lymph Nodes after Lymphography</i>	138
<i>Clodius, L., L. Deak, N.B. Piller: A New Instrument for the Evaluation of Tissue Tonicity in Lymphoedema</i>	1
<i>Fabian, G.: The Lymphatic Vessels of the Uterus during the Sexual Cycles of the Mice</i>	78
<i>Gandhi, G.M.: Role of Lymphography in Management of Filarial Chyluria</i>	11
<i>Gnepp, D.R.: The Bicuspid Nature of the Valves of the Peripheral Collecting Lymphatic Vessels of the Dog</i>	75
<i>Herman, P.G., I. Yamamoto, H.Z. Mellins: The Lymph node in Experimental Xanthomatosis</i>	36
<i>Herman, P.G., D. Lyonnet, R. Fingerhut, R.N. Tuttle: Regional Blood Flow to the Lymph Node During the Immune Response</i>	101
<i>Hobbs, B.B., J.W. Davidson: The Microcirculation of the Mammalian Lymph Node</i>	155
<i>Ismail, A.M., A. Aboul-Enein: The Role of Lymphatics in the Formation of Ascites Complicating Schistosomal Hepatic Fibrosis</i>	43
<i>Janisch, H., S. Leodolter: On Radioactive Labelling of the Lymph Drainage Regions of the Pelvis</i>	5
<i>Lien, H.H., A. Kolbenstvedt: Venography of the Left Renal and Left Gonadal Veins as a Supplement to Lymphography. Report of Four Cases.</i>	23
<i>Musumeci, R., R.A. Castellino: Lymphography in Malignant Histiocytosis: Case Report</i>	66
<i>Piller, N.B.: Conservative Treatment of Acute and Chronic Lymphoedema with Benzo-pyrones</i>	132
<i>Piller, N.B., L. Clodius: The Use of a Tissue Tonometer as a Diagnostic Aid in Extremity Lymphoedema: A Determination of its Conservative Treatment with Benzo-pyrones</i>	127
<i>Pouliadis, G.P., J. Wellauer, W. Wirth: Diffuse Lymphangiomyomatosis</i>	28
<i>Quin, J.W., A.D. Shannon: Red Blood Cell Catabolism in Lymph Nodes of the Sheep and Rat: Quantitation</i>	112
<i>Rauste, J., K. Tallroth, M. Wiljasalo: Lymphographic Changes Caused by Lymph Node Metastases in Carcinoma of the Suprarenal Glands</i>	19
<i>Rauste, J., A. Lahdensuo, I. Suramo: Lymphographical Findings in Disseminated Tuberculosis without Radiological Lung Manifestations</i>	62
<i>Reichel, A., U. Rother, J. Werner, F. Reichel: On the Transport of Various Endogenous Plasma Proteins from Blood to Peripheral Lymph in Man</i>	118

<i>Rydgren, L., B. Norberg, C.K. Håkansson, C. v. Mecklenburg, N. Söderström:</i> Lymphocyte Locomotion I. The Initiation, Velocity, Pattern, and Path of Locomotion in Vitro	89
<i>Rydgren, L., B. Norberg, C. v. Mecklenburg, C.H. Håkansson, N. Söderström:</i> Lymphocyte Locomotion II. The Lymphocyte Traffic over the Post- Capillary Venules Analysed by Phase Contrast Microscopy of Thin Sections of Rat Lymph Nodes	96
<i>Rydgren, L., B. Norberg, C. v. Mecklenburg, C.H. Håkansson, N. Söderström:</i> Lymphocyte Locomotion III. Ultrastructural Studies of the Lymphocyte Traffic over the Post-Capillary Venules of Rat Lymph Nodes	150
<i>Sadek, A.M., A.M. Isamil, A. Aboul-Enein, E. Hassanein, O.G. Massoud, M.H. El-Assi:</i> Percutaneous Transhepatic Lymphography: Evaluation in Schistosomal Hepatic Fibrosis	47
<i>Serenyi, P., Z. Magyar, G. Szabó:</i> Cervical Lymphato-Venous Shunt in Treat- ment of Ascites in Caval-Constricted Dogs and in Patients with Hepatic Cirrhosis	53
<i>Sjögren, U.:</i> Amoeboid Movement Configuration and Mitotic Indices of Lymphoid Cells from Children with Acute Lymphoblastic Leukemia	69
<i>Stevens, D.B., G.H. Whitehouse:</i> Waldenstrom's Macroglobulinemia with Amyloidosis - Lymphographic Findings	142
<i>Szabo, G., Z. Magyar, E. Pósch:</i> The Relationship between Tissue Fluid and Lymph	145
<i>Uhley, H.N., S.E. Leeds:</i> Lymphatics of the Canine Papillary Muscles	72
<i>Weissleder, H., P. Pfannenstiel, P.E. Peters:</i> Distribution Pattern of Radioactive Labelled Lipiodol-UF® Following Intralymphatic Application for Therapy	122
<i>Ballou, J.E.:</i> Radiation and the Lymphatic System (Book Review)	86
<i>Lüning, M., M. Wiljasalo, H. Weissleder:</i> Lymphography in Malignant Tumors (Book Review)	158
<i>Tallroth, K.:</i> Lymphatic Dissemination of Bone and Soft Tissue Sarcomas. A Lymphographic Investigation (Book Review)	87
In Memoriam Klaus Ranniger	83
International Society of Lymphology	42, 83, 158

Yamamoto, I. 36

Subject Index

A

- Ascites in caval-constricted dogs, lympho-venous shunt in 53
 - patients with hepatic cirrhosis, cervical lympho-venous shunt in 53
 - schistosomal hepatic fibrosis, role of lymphatics 43
- Amoeboid movement configuration of lymphoid cells in ALL 69
- Amyloidosis with Waldenström's macroglobulinaemia, lymphographic findings 142

B

- Benzo-pyrones, conservative treatment of acute and chronic lymphoedema with 132
 - for conservative treatment of extremity lymphoedema 127
- Blood cell, red, catabolism in lymph nodes 112
 - flow, regional, to the lymph node during immune response 101
- Bone and soft tissue sarcomas, lymphatic dissemination in (bk) 87

C

- Catabolism, red blood cell, in lymph nodes 112
- Cervical lympho-venous shunt in treatment of ascites 53
- Chyluria, filarial, lymphography in 11
- Collecting lymphatic vessels of the dog, bicuspid nature of valves 75

E

- Endolymphatic therapy with radio-nuclides, distribution pattern of 122

F

- Filariasis, Chyluria in 11

G

- Gondal vein, left, venography of 23

H

- Hepatic cirrhosis, cervical lympho-venous shunt in 53
 - fibrosis, schistosomal, ascites in 43
 - percutaneous trans-hepatic lymphography 47
 - lymph drainage of the dog 105
- Histiocytosis, malignant, lymphography in 66
- Hodgkin's disease, lymphocyte function in 39

I

- Immune Response, regional blood flow to the lymph node during 101
- Intralymphatic application of radioactive labelled LIPIODOL for therapy 122

L

- Leukemia, acute lymphoblastic, amoeboid movement configuration and mitotic indices of lymphoid cells 69
- LIPIODOL, radioactive labelled, distribution pattern of 122
- Lymph and tissue fluid 145
- Lymphangiomyomatosis, diffuse 28
- Lymphatic dissemination of bone and soft tissue sarcomas (bk) 87
- Lymphatics in formation of ascites complicating schistosomal hepatic fibrosis 43
 - of canine papillary muscles 72
- Lymphatic system, radiation and (bk) 86
 - vessels, bicuspid nature of valves 75
 - of the uterus during sexual cycles of mice 78
- Lymph drainage, hepatic of the dog 105
 - of pelvis 5
 - node in experimental xanthomatosis 36
 - mammalian, microcirculation of 155
 - metastases in carcinoma of suprarenal glands 19
 - regional blood flow to 101
 - size, spontaneous alterations of, after lymphography 138
 - of the sheep, red blood cell catabolism 112
- Lymphocyte function in Hodgkin's disease 39
 - locomotion 89, 96, 150
 - initiation, velocity, pattern and path of 89
 - traffic over post-capillary venules 96
 - ultrastructural studies 150
- Lymphoedema, a new instrument for evaluation of tissue tonicity 1
 - acute and chronic, conservative treatment with benzo-pyrones 132
 - extremity, conservative treatment with benzo-pyrones 127
 - use of a tissue tonometer in 127
- Lymphography in carcinoma of suprarenal glands 19
 - disseminated tuberculosis without radiological lung manifestations 62
 - filarial chyluria 11
 - malignant histiocytosis 66
 - tumors (bk) 158
 - Waldenström's Macroglobulinaemia with amyloidosis 142
 - percutaneous transhepatic 47
 - spontaneous alteration in the size of lymph nodes 138
- Lymphoid cells from children with ALL, amoeboid movement configuration and mitotic indices 69
- Lymph, peripheral, transport of plasma proteins from blood to 118
- Lymphovenous shunt, cervical, in treatment of ascites 53

M

- Microcirculation of the mammalian lymph node 155
- Mitotic indices of lymphoid cells in ALL 69
- Muscle, papillary, lymphatics of 72

P

- Papillary muscles, canine, lymphatics of 72
- Pelvis, lymph drainage regions 5
- Percutaneous trans-hepatic lymphography in schistosomal hepatic fibrosis 47
- Plasma protein, endogenous, transport from blood to peripheral lymph 118

R

- Radiation and the lymphatic system (bk) 86
- Radioactive labelled LIPIODOL, distribution pattern of 122
 - labelling of lymph drainage regions of the pelvis 5
- Red blood cell catabolism in lymph nodes of sheep and rat 112
- Renal vein, left, venography of 23

S

- Sarcomas of bone and soft tissue, lymphatic dissemination in (bk) 87
- Schistosomal hepatic fibrosis, ascites in 43
 - percutaneous trans-hepatic lymphography in 47
- Sexual cycles, lymphatic vessels of the uterus during 78
- Soft tissue and bone sarcomas, lymphatic dissemination in (bk) 87
- Suprarenal glands, lymph node metastases 19

T

- Tissue fluid and lymph 145
- Tissue tonometer as diagnostic aid in extremity lymphoedema 127
 - tonicity in lymphoedema 1
- Transport of plasma proteins from blood to peripheral lymph in man 118
- Tuberculosis, disseminated, without lung manifestations, lymphographical findings in 62
- Tumors, malignant, lymphography in (bk) 158

U

- Uterus, lymphatic vessels of 78

V

- Valves of peripheral collecting lymphatic vessels 75
- Venography of left renal and left gonadal vein 23
- Venules, post-capillary, lymphocyte traffic over 96

W

- Waldenström's Macroglobulinaemia, lymphographic findings in 142

X

- Xanthomatosis, experimental 36

Instruction to Authors

Lymphology is published quarterly in English. It contains original articles, editorials, abstracts and information regarding the International Society of Lymphology.

Subjects for Publication

Lymphology seeks original papers dealing with clinical and investigative studies of the lymphatic system including related fields. Articles are accepted for publication on the condition that they are contributed to Lymphology only and that no substantial part has been or will be published elsewhere.

Addresses:

ALLAN E. DUMONT, M.D.,
Department of Surgery, New York University, School of Med., 550 First Ave., New York, N.Y. 10016
PETER E. PETERS, M.D.,
Radiologische Klinik der Westfälischen Wilhelms-Universität, Jungeblutplatz 1, D-4400 Münster i.W.
HORST WEISSELEDER, M.D.,
International Society of Lymphology, Central Office, c/o Deutsche Klinik für Diagnostik,
Aukammallee 33, D-6200 Wiesbaden

Form and Style

Manuscripts including illustrations should not exceed 8 pages. In addition, the authors should retain at least one copy in order to prevent damage due to accidental losses in the mail. Text, footnotes, references and captions should be typewritten, double-spaced with at least 2 1/4 cm margin all around and should not exceed 8 pages. The *title-page* should contain: title of paper, author's name, academic degree, institution and address to which proofs should be mailed. *Tables, graphs, legends and references* should be placed on separate sheets. *Figures* including graphs, photographs and photomicrographs should be submitted as glossy print photographs preferably in a size suitable for publication without changes. They need to be clean, sharp and well-balanced regarding black and white contrast. References should be numbered serially in the text and listed at the end of the paper in the same order. Authors are responsible for the accuracy of their bibliographies.

Sample arrangement:

Journals: MILLER, R. A., O. H. SMITH: Lymphocyte function. *New Engl. J. Med.* 253 (1965), 72-76

Books: ALLEN, E. V., N. W. BARKER, E. W. HINES: *Peripheral Vascular Disease*, Saunders, Philadelphia 1955.

Abbreviations of journals have to conform to World Medical Periodicals.

The *general style* of the manuscript should be in accordance with *Style Manual for Biological Journals*, 2nd Ed., published by the American Institute of Biological Sciences, 2000 P Street, N. W., Washington, D.C. 20036, U.S.A.

Proofs will be sent to authors and ought to be immediately returned to the publisher.

Reprints: 70 copies of the original articles are supplied free of charge. Additional copies must be ordered in advance.

With the acceptance of a manuscript the publishers acquire — for the duration of the legal period of protection — the exclusive right for the use of the rights of exploitation according to §§ 15 ff. of the laws of authors. Translation, reproduction — including illustrations —, copying by photomechanical or similar means or with the magnetron process, lectures, radio or television distribution as well as collection in data-processing plants — also in part — are permitted only with the written consent of the publishers. Single copies may be made for personal use, of contributions or parts of them. Every copy made within a commercial enterprise serves commercial purposes according to § 54, 2 UrhG and attracts a fee. This fee amounts to DM —,40 per copied page and is paid either by the respective value-stamp or by payment to the VG Wissenschaft GmbH, Grosser Hirschgraben 17/21, 6000 Frankfurt a. M. from where further detail may be obtained. Subscription to the Journal by reading groups is not permitted.

© Georg Thieme Verlag, Stuttgart 1976 — Printed in Germany.

Information to Subscribers

Lymphology is published quarterly. Four numbers form one volume.

Subscription rate: DM 88,—, Single copies: DM 28,— each plus delivery costs from publishing place. (Prices subject to change.) Special rate for members of the International Society of Lymphology only through the Society. The subscription will be considered renewed for one subsequent year unless terminated prior to 1st December.
